MARKET COMMENTARY

DSM

DSM remains the most active submarket with 11 active listings totaling 357 units. The lone new entry this week — Valley Acres Apartments at 920 Meadow Ln — is a 102-unit Class C asset priced at \$5.9M (\$57,843/unit, 7.58% cap rate). At that pricing, it targets the value-add buyer base and is one of the larger individual assets currently on the market statewide. CBRE continues to dominate DSM listing activity. The Ames university corridor listings from prior weeks remain unpriced and active.

Rural

Five rural listings remain active with 173 units and an average asking price of \$82,840/unit — elevated relative to prior weeks, reflecting the Chariton Class A development at \$115,385/unit anchoring the average. The Ft. Dodge 72-unit listing at 1015 5th Ave. (Greysteel) remains unpriced and continues to be the largest single rural listing by unit count. No rural sales were recorded this week.

Sioux City

Sioux City holds three active listings — one Class A at \$177,083/unit (1720 Morningside Ave.) and two unpriced assets. No new activity this week. The Morningside listing remains the highest asking price per unit of any active listing statewide and targets institutional or exchange buyers. Market quiet otherwise.

Quad Cities

Three Class D listings across Davenport and Bettendorf remain active (100 units, avg \$57,949/unit). All three listed by Marcus & Millichap on May 13. No closings. These assets represent the lowest quality tier in the statewide tracker — watch for price reductions as days on market extend.

Waterloo

Two listings remain active in Waterloo totaling 35 units. Average asking at \$56,042/unit consistent with recent submarket norms. No new listings or sales. Market stable but thin — limited buyer pool relative to other submarkets.
